

XMA Limited is a British IT company founded in 1982 with offices in St Albans, Nottingham, and Glasgow. We are an independent multi-vendor IT supplier, solution, service, and software provider that focuses primarily on the government, corporate, and education markets.

XMA has a team of over 300 experienced professionals who are experts in a wide range of IT disciplines and offer a comprehensive range of IT services, including:

- Configuration & Logistics services
- Complaint disposal, refurb, refresh & circular IT services
- Infrastructure design & implementation
- Support & Maintenance
- Cyber Security
- Training & Consultancy
- Software development
- A wide range of managed and G-cloud services

XMA's customers include a wide range of organisations, from small businesses to large corporations. We have a proven track record of success in delivering high-quality IT solutions and services to a myriad of customers, and we incorporate a strategic focus on ESG and Social Value which sits at the heart of everything we do and the solutions we provide.

XMA constantly invest in new technologies and training its staff to ensure that it can meet the changing needs of its customers, no more so than in the Defence and Security markets.

If you require an innovative, agile, reliable, and experienced IT partner, then look no further.

Upon joining XMA In January 2023, I was determined to gain JOSCAR Registration for XMA to present XMA's capabilities to the growing community of JOSCAR members. I have worked with the system before and witnessed its benefits to both buyers and suppliers.

The questionnaire, whilst comprehensive, strikes the fine balance of relevance and usefulness in developing an effective due diligence resource for buyers, whilst allowing suppliers to showcase capabilities and access approved supplier lists of some of the leading Defence & Security Prime Contractors.

It took a few weeks for the team to interview internal stakeholders to gather the information required to complete the process, and while this was being completed any queries were handled efficiently by the Helios service desk who were very supportive and responsive throughout. Equally, the site itself is intuitive and easy to bookmark and return to, which makes the process easier.

We are excited to join the JOSCAR community as a registered supplier and hope to use the listing to drive collaborative relationships with the JOSCAR Member community and develop our compliance posture to meet the ever-changing needs of the Defence and Security sector.

Scott Cattaneo – Head of Defence, XMA Ltd

"We are delighted to join JOSCAR and look forward to adding our experience, expertise, and energy as we collaborate within the JOSCAR community to strengthen the IT Solution potential of the Defence & Security supply chain."

Malcolm Sheils
XMA Government Sales Director
